

MUSTAFA MAHMOUD SHAWKY

Senior Architectural Engineer & BIM Specialist

Sabah Elsalem, Kuwait | +965 9919 1358 | Mustafa_arch07@yahoo.com

[linkedin.com/in/mostafamahmoud-architect](https://www.linkedin.com/in/mostafamahmoud-architect)

PROFESSIONAL SUMMARY

Competent Architectural Engineer and BIM Manager offering more than 19 years of proven leadership and expertise in architectural working drawings, advanced Revit modeling, onsite construction investigations, and end-to-end BIM process implementation. Demonstrated success leading multi-disciplinary squads on high-profile institutional, commercial, and administrative projects across Kuwait and the Gulf region. Expert in streamlining coordination workflows, performing rigorous clash-detection, and creating custom Revit automation tools using Python and Dynamo to cut production times significantly.

CORE COMPETENCIES & TECHNICAL SKILLS

- **BIM & Engineering Software:** Revit (Certified Professional – Expert), AutoCAD (Expert), Navisworks (Advanced), 3DS Max (Advanced), Lumion (Advanced), Photoshop (Expert)
- **BIM Management & Automation:** Dynamo Scripting, Python Development, Revit Plugin Automation, BIM 360/ACC, Inter-Discipline Clash Detection & Resolution
- **Core Engineering Competencies:** Architectural Working Drawings, Multidisciplinary Coordination, Onsite Investigations & Supervision, Sustainable Design, Materials Viability Analysis

PROFESSIONAL EXPERIENCE

Senior Architectural Engineer & BIM Specialist

Pace, Kuwait

09/2022 - Present

- Led a multidisciplinary BIM team delivering two major Kuwait University Health Sciences Center (KUHSC) structures (Allied Health Building & Learning Resource Centre), overseeing full architectural development and milestone submissions via Revit and BIM 360.
- Served as primary liaison for design coordination with global architectural firms Perkins Eastman and Ennead Architects, successfully resolving complex conflicts and ensuring seamless alignment between international design intent and local engineering requirements.
- Directed intensive inter-discipline coordination across architectural, structural, and MEP teams, proactively identifying and mitigating critical model clashes and design discrepancies to guarantee project design integrity.
- Reviewed over 100 intricate architectural drawings for the Dubai Iconic Tower project within a compressed one-week schedule, identifying major technical and design deficiencies that posed high critical risks to the overall development workflow.

- Developed and deployed 19+ custom Revit automation plugins spanning modeling, analytical reporting, and quality control (QC) workflows utilizing Dynamo and Python, cutting task completion times by up to 80% while providing continuous technical BIM support to the engineering team.

Registered Architectural Engineer & BIM Manager

Kuwait Technical Consulting Bureau (KTCB), Kuwait

12/2011 - 09/2022

- Collaborated closely within a multidisciplinary ecosystem to engineer and develop large-scale administrative and institutional projects across Ahmadi, Jahra, Jaber El-Ahmad, and Wafra.
- Led and mentored a dedicated delivery team of 4 draftsmen and 2 architects on multiple commercial, corporate, and municipal administrative developments.
- Spent 4 years of tenure embedded on-site at the flagship KGOC (Kuwait Gulf Oil Company) project, supervising contractors, reviewing construction outputs, and resolving highly complex structural/architectural issues dynamically with the aid of Revit modeling.
- Programmed and created highly customized Dynamo scripts and Python nodes to systematically bypass standard Revit limitations, optimizing production speeds and solving advanced geometric modeling challenges.
- Incorporated sustainable design standards and green building practices into core commercial and administrative blueprints, improving environmental efficiency profiles.
- Generated high-end graphic renderings, walkthroughs, and precise models using AutoCAD, Revit, and 3DS Max to facilitate multi-stakeholder design reviews.
- Evaluated and determined the availability, strength, and commercial viability of structural and finish materials for more than 10 major public and private projects.

Architectural Engineer

Trends (Ghaida Al-Khaled Consulting Office), Kuwait

01/2008 - 12/2011

- Provided comprehensive design and leadership support to architectural clients while actively managing all core phases of design development, working drawings, and documentation.
- Conducted regular site investigations and construction monitoring visits to track execution progress, consult with contractors, and resolve structural discrepancies with on-site engineering crews.
- Authored and styled high-quality marketing and presentation brochures for owner partners, directly contributing to a 15% increase in real-estate and design project sales.
- Managed challenging client accounts and stakeholder inquiries with expert poise and structured technical support, resolving complaints and project drift efficiently.

KEY PROJECT PORTFOLIO

- **Educational & Healthcare:** Kuwait University Health Sciences Center (KUHSC) - Allied Health Building & Learning Resource Centre, Typical Institutional Kindergartens and Schools, Mubarak Al Abdullah Joint Command and Staff College, National Guard Clinic.
- **Commercial & Mixed-Use:** Dubai Iconic Tower, Abdullah El Salem Co-operative Society, El Salam Co-operative Expansion.

- **Administrative & Corporate:** Kuwait Gulf Oil Company (KGOC) Headquarters, Ministries Complex, Islamic Center, Wafra Joint Operation Main building office, Kuwait Digital Startup Campus
- **Civic, Islamic & Competitions:** Kuwait Olympic Village (Competition), Dubai Creek Harbour Mosque (Competition), Sohag Neighborhood Mosque, Typical Institutional Kindergartens and Schools.
- **Residential:** High-End Private Villas, Complex Layouts, and Compound Estates for premium clients.

EDUCATION

Bachelor of Architecture (B.Arch.) | Minia University, Faculty of Engineering, Egypt 2002 – 2007

- Graduated with Excellency, specializing in advanced working drawings, computerized graduation architecture projects, and regional urban planning models.

LICENSES & CERTIFICATIONS

- Project Management Professional (PMP)[®] – Project Management Institute (PMI)
- Registered Professional Architect – Kuwait Society of Engineers (KSE)
- Registered Architect – Egyptian Engineers Syndicate
- Eligible for BEFA (Broadly Experienced Foreign Architects) Application

LANGUAGES

Arabic: Native / Mother Tongue | **English:** Professional Working Proficiency (BUSUU B2 Certified)
