PROFESSIONAL SUMMARY

Architectural Engineer and BIM Manager with 19 years of experience in architectural working drawings, Revit modeling, onsite construction investigations, and BIM process implementation. Led multi-disciplinary teams on institutional, commercial, and administrative projects across Kuwait and the Gulf region. Streamlined coordination workflows, ran clash-detection processes, and built custom Revit automation tools in Python and Dynamo to speed up production.

CORE COMPETENCIES & TECHNICAL SKILLS

- **BIM & Engineering Software:** Revit (Certified Professional – Expert), AutoCAD (Expert), Navisworks (Advanced), 3DS Max (Advanced), Lumion (Advanced), Photoshop (Expert)
- **BIM Management & Automation:** Dynamo Scripting, Python Development, Revit Plugin Automation, BIM 360/ACC, Inter-Discipline Clash Detection & Resolution
- **Core Engineering Competencies:** Architectural Working Drawings, Multidisciplinary Coordination, Onsite Investigations & Supervision, Sustainable Design, Materials Viability Analysis

PROFESSIONAL EXPERIENCE

Senior Architect & BIM Specialist

Pace, Kuwait 09/2022 – 08/2026

- Led a multidisciplinary BIM team delivering two major Kuwait University Health Sciences Center (KUHSC) structures (Allied Health Building & Learning Resource Centre), overseeing full architectural development and milestone submissions via Revit and BIM 360.
- Served as primary liaison for design coordination with Perkins Eastman and Ennead Architects, resolving conflicts between international design intent and local engineering requirements.
- Directed coordination across architectural, structural, and MEP teams, identifying and resolving model clashes and design discrepancies.
- Reviewed over 100 architectural drawings for the Dubai Iconic Tower project within a one-week schedule, identifying technical and design deficiencies that put the development timeline at risk.
- Developed and deployed 19+ custom Revit automation plugins for modeling, analytical reporting, and quality-control workflows using Dynamo and Python, cutting task completion times by up to 80%, and provided ongoing technical BIM support to the engineering team.

Registered Architect & BIM Manager

Kuwait Technical Consulting Bureau (KTCB), Kuwait 12/2011 - 09/2022

- Worked within a multidisciplinary team to engineer and develop large-scale administrative and institutional projects across Ahmadi, Jahra, Jaber El-Ahmad, and Wafra.
- Led and mentored a team of 4 draftsmen and 2 architects on commercial, corporate, and municipal administrative developments.
- Spent 4 years on-site at the KGOC (Kuwait Gulf Oil Company) project, supervising contractors, reviewing construction outputs, and resolving structural and architectural issues using Revit modeling.
- Wrote custom Dynamo scripts and Python nodes to work around standard Revit limitations, speeding up production and solving complex geometric modeling problems.
- Incorporated sustainable design standards and green building practices into commercial and administrative blueprints.
- Produced renderings, walkthroughs, and models using AutoCAD, Revit, and 3DS Max for design reviews with multiple stakeholders.
- Evaluated the availability, strength, and commercial viability of structural and finish materials for more than 10 public and private projects.

Architect

Trends (Ghaida Al-Khaled Consulting Office), Kuwait 01/2008 - 12/2011

- Provided design and leadership support to architectural clients, managing design development, working drawings, and documentation.
- Conducted regular site investigations and construction monitoring visits to track execution progress, consult with contractors, and resolve structural discrepancies with on-site engineering crews.
- Authored and designed marketing and presentation brochures for owner partners, contributing to a 15% increase in real-estate and design project sales.
- Managed client accounts and stakeholder inquiries, resolving complaints and project delays.

KEY PROJECT PORTFOLIO

- **Educational & Healthcare:** Kuwait University Health Sciences Center (KUHSC) - Allied Health Building & Learning Resource Centre, Typical Institutional Kindergartens and Schools, Mubarak Al Abdullah Joint Command and Staff College, National Guard Clinic.
- **Commercial & Mixed-Use:** Dubai Iconic Tower, Abdullah El Salem Co-operative Society, El Salam Co-operative Expansion.
- **Administrative & Corporate:** Kuwait Gulf Oil Company (KGOC) Headquarters, Ministries Complex, Islamic Center, Wafra Joint Operation Main building office, Kuwait Digital Startup Campus
- **Civic, Islamic & Competitions:** Kuwait Olympic Village (Competition), Dubai Creek Harbour Mosque (Competition), Sohag Neighborhood Mosque, Typical Institutional Kindergartens and Schools.
- **Residential:** High-End Private Villas, Complex Layouts, and Compound Estates for premium clients.

EDUCATION

Bachelor of Architecture (B.Arch.) | Minia University, Faculty of Engineering, Egypt 2002 – 2007

- Graduated with Excellency, specializing in working drawings, computerized graduation architecture projects, and regional urban planning models.

LICENSES & CERTIFICATIONS

- Project Management Professional (PMP)® – Project Management Institute (PMI)
- Registered Professional Architect – Kuwait Society of Engineers (KSE)
- Registered Architect – Egyptian Engineers Syndicate
- Eligible for BEFA (Broadly Experienced Foreign Architects) Application

LANGUAGES

Arabic: Native / Mother Tongue | **English:** Professional Working Proficiency (BUSUU B2 Certified)
